Will it remain free?

Will this service remain free?

YES! this service will always remain free of charge, although at some point there will be a subscription option with more features available than free accounts.

What about if you want a normal visible Hit Counter?

If You would like a visible Hit Counter then Whatcounter can provide that too!

To make your free hit counter visible all you need do is set it to visible and choose your counter style, go to the [User Guide](#) to find out how

What styles can I set my visible hit counter to?

Through the control panel you can set its font style and color, and you can set the background color, like so: **83449**

You can customise your hit counter to your liking also, all you need to is put the code we give you inside a container with it's font, background, border properties set to your liking, [Join the forum and ask how to do this and improve your design skills](#)

We hope you enjoy your free hit counter, whether visible or invisible :)

Sign up for your [Free Hit Counter](#) today!

Here are the presently available counter fonts, they use freetype so if you have stumbled across a font you like contact us, remember you can change the font and background colors to whatever you like
